

Sideload Your eBook into an Android device

Download the eBook

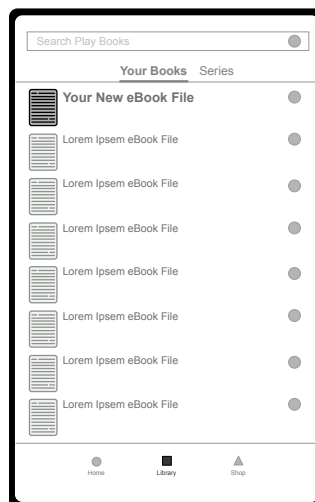

Google Android eBook

Locate the book in your Downloads folder and drag the book to Google Drive (install if you do not have the app at google.com/drive).

Locate the ebook filed in the Google Drive app on your Android device. Tap the file once to open or preview it. Or select the 'Open With' option in the pop-up menu.

The file should open automatically in the Play Books app on your Android device, or you can open the Play Books app and wait for your device to sync to access your new book on the main library screen.
